

SAFETY DATA SHEETS

DYE N SEAL WB DYE

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: DYE N SEAL WB DYE
MANUFACTURER: Incredible Products LLC. ADDRESS: 1101 Lincoln Ave, Wapakoneta, OH 45895
INFORMATION PHONE: 567-297-3700 EMERGENCY PHONE: 800-424-9300
JULY 28,2020

SECTION 2: HAZARDOUS IDENTIFICATION

Classification:

Skin Irritation: Category 1
Eye Irritation: Category 2A
Respiratory Sensitizer: Category 1
Skin Sensitizer: Category 1
Carcinogenicity: N/A

Signal Word: Warning

Hazardous Statements- Health:

H320- May cause eye irritation
H315- May cause skin irritation
H317- May cause an allergic skin reaction
H333- May be harmful if inhaled
H334- May cause allergy or respiratory difficulties if inhaled

Precautionary Statements- General:

P101- If medical advice is needed, have product container or label at hand
P102- Keep out of reach of children
P103- Read label before use

Precautionary Statements- Prevention:

P210- Keep away from heat/sparks/open flames/hot surfaces
P264- Wash thoroughly after handling
P280- Wear protective gloves/protective clothing/eye protection/ face protection
P261- Avoid breathing dust/fume/gas/mist/vapors/spray
P284 - <In case of inadequate ventilation> wear respiratory protection.
P272- Contaminated work clothing should not be allowed out of the workplace
P201- Obtain special instructions before use
P202- Do not handle until all safety precautions have been read and understood

Precautionary Statements- Response:

P332 + P313- If skin irritation occurs: Get medical advice/attention
P305 + P351 + P338+- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313- If eye irritation persists: Get medical advice/attention
P304 + P340- IF INHALED: Remove person to fresh air and keep comfortable for breathing
P342 + P311- If experiencing respiratory symptoms: Call a POISON CENTER/doctor
P302 + P352- IF ON SKIN: Wash with plenty of water
P333 + P313- If skin irritation or rash occurs: Get medical advice/attention
P321- Specific treatment (see section 4 on this SDS)
P362 + P364- Take off contaminated clothing- And wash it before reuse
P308 + P313- IF exposed or concerned: Get medical advice/attention

Precautionary Statements- Storage:

P405- Store locked up

Precautionary Statements- Disposal:

P501- Dispose of contents/container to an approved waste disposal site in accordance with local, state, and federal law.

SECTION 3: COMPOSITION/ INFORMATION ON INGREDIENTS

Proprietary Component 1	(CAS No) Trade Secret	Trade Secret	Not Classified
Proprietary Component 2	(CAS No) Trade Secret	Trade Secret	Flam. Liq. 4, H227
Proprietary Component 3	(CAS No) Trade Secret	Trade Secret	Not Classified
Proprietary Component 4	(CAS No) Trade Secret	Trade Secret	Not Classified
Proprietary Component 5	(CAS No) Trade Secret	Trade Secret	Not Classified
Proprietary Component 6	(CAS No) Trade Secret	Trade Secret	Not Classified

SECTION 3 NOTES: *Indicates toxic chemical(s) subject to reporting requirements of section 313 of Title III and of 40 CFR 372.

SECTION 4: FIRST AID MEASURES

INHALATION:

Remove the source of exposure or move a person to fresh air and keep comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTER/doctor. If breathing is difficult, trained personnel should administer emergency oxygen if advised to do so by the POISON CENTER/doctor. If exposed/ feel unwell/concerned: Call a POISON CENTER/doctor.

SKIN CONTACT:

Take off contaminated clothing, shoes and leather goods (e.g. watchbands, belts). Gently blot or brush away excess product. Wash with plenty of lukewarm, gently flowing water for a duration of 15-20 minutes. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before re-use or discard. IF exposed or concerned: Get medical advice/attention.

EYE CONTACT:

Remove source of exposure or move the person to fresh air. Rinse eyes cautiously with lukewarm, gently flowing water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing for a duration of 15-20 min. Take care not to rinse contaminated water into the unaffected eye or onto the face. If eye irritation persists: Get medical advice/attention. Avoid direct contact. Wear chemical protective gloves, if necessary.

INGESTION:

Give 1 or 2 glasses of water to drink and refer the person to medical personnel. Do not give anything by mouth to an unconscious person. IF exposed or concerned: Get medical advice/attention.

SECTION 5: FIRE FIGHTING MEASURES

SUITABLE EXTINGUISHING MEDIA:

Use extinguishing media appropriate for surrounding fire.

UNSUITABLE EXTINGUISHING MEDIA:

N/A

FIRE-FIGHTING PROCEDURES:

Isolate immediate hazard areas and keep unauthorized personnel out. Stop spill/release if it can be done safely. Move undamaged containers from the immediate hazard area if it can be done safely. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Water may be ineffective but can be used to cool containers exposed to heat or flame. Caution should be exercised when using water or foam as frothing may occur, especially if sprayed into containers of hot, burning liquid. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

SPECIAL PROTECTIVE ACTIONS:

Wear NIOSH approved self-contained breathing apparatus in positive pressure mode with full-face piece. Boots, gloves (neoprene), goggles, and full protective clothing are also required. Care should always be exercised in dust/mist areas.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Emergency Procedure:

Stop the flow of material, if this is without risk. Confine spill and soak up with absorbent material. Place in an approved container and dispose in accordance with local, state and federal regulations.

Recommended Equipment:

Positive pressure, full-face piece self-contained breathing apparatus (SCBA), or positive pressure supplied air respirator with escape SCBA (NIOSH approved).

Personal Precautions:

Avoid breathing vapors. Avoid contact with skin, eyes or clothing. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing.

Environmental Precautions:

Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems and natural waterways by using sand, earth, or other appropriate barriers.

SECTION 7: HANDLING AND STORAGE

GENERAL:

Wash hands after use. Do not get in eyes, on skin or on clothing. Do not breathe vapors or mists. Use good personal hygiene practices. Eating, drinking and smoking in work areas is prohibited. Remove contaminated clothing and protective equipment before entering eating areas. Eyewash and showers should be available in areas where this material is used and stored.

VENTILATION REQUIREMENTS:

N/A

STORAGE ROOM REQUIREMENTS:

Store in a dry, cool, well-ventilated area

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

EYE PROTECTION:

Wear eye protection with side shields or goggles. Wear indirect-vent, impact and splash resistant goggles when working with liquids. If additional protection is needed for the entire face, use it in combination with a face shield.

SKIN PROTECTION:

Use of gloves approved to relevant standards made from the following materials may provide suitable chemical protection: PVC, neoprene or nitrile rubber gloves. Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, glove thickness, and dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Use of an apron and over-boots of chemically impervious materials such as neoprene or nitrile rubber is recommended to avoid skin sensitization. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Launder soiled clothes or properly disposed of contaminated material, which cannot be decontaminated.

RESPIRATORY PROTECTION:

If engineering controls do not maintain airborne concentrations to a level which is adequate to protect workers, a respiratory protection program that meets or is equivalent to OSHA 29 CFR 1910.134 and ANSI Z88.2 should be followed. Check with respiratory protective equipment suppliers. When airborne concentrations exceed or are expected to exceed the TLV, use MSHA/NIOSH approved positive pressure supplied air respirator with a full-face piece or an air supplied hood. For emergencies, use a positive pressure self-contained breathing apparatus. Air purifying (cartridge type) respirators are not approved for protection against isocyanates.

APPROPRIATE ENGINEERING CONTROLS:

Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

SPECIFIC GRAVITY:

N/A

BOILING POINT:

N/A

EVAPORATION RATE:

N/A

VAPOR DENSITY:

N/A

SOLUBILITY IN H2O:

Miscible with water

SECTION 10: STABILITY AND REACTIVITY

STABILITY:

The product is stable at normal handling and storage conditions.

CONDITIONS TO AVOID:

N/A

HAZARDOUS REACTIONS/POLYMERIZATION:

Will not occur

INCOMPATIBLE MATERIALS:

N/A

HAZARDOUS DECOMPOSITION PRODUCTS:

N/A

SECTION 11: TOXICOLOGICAL INFORMATION

Acute Toxicity: N/A

Information on toxicological effects

Symptoms: Causes serious eye irritation

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation: N/A

Serious eye damage/eye irritation: Irritating to eyes.

Irritation: Irritating to eyes

Sensitization: N/A

Germ cell mutagenicity: N/A

Carcinogenicity: This product does not contain any carcinogens or potential carcinogens as listed by OSHA, IARC or NTP.

Reproductive toxicity: N/A

STOT - single exposure: N/A

STOT - repeated exposure: N/A

Aspiration hazard: N/A

SECTION 12: ECOLOGICAL INFORMATION

Material is expected to be harmful to aquatic organisms. May cause long-term adverse effects in the aquatic environment.

Proprietary Component 2 (Trade Secret)

LC50 fish 1 1300 mg/l (Exposure time: 96h - Species: Lepomis macrochirus [static])

EC50 Daphnia 1 > 100 mg/l (Exposure time: 48h - Species: Daphnia magna)

EC50 other aquatic organisms 1 > 100 mg/l (Exposure time: 96h - Species: Desmodesmus subspicatus)

Proprietary Component 5 (Trade Secret)

LC50 fish 1 > 1000 mg/l (Exposure time: 96h - Species: Cyprinus carpio [semi-static])

Proprietary Component 1	(CAS No) Trade Secret	Trade Secret	Not Classified
Proprietary Component 2	(CAS No) Trade Secret	Trade Secret	Flam. Liq. 4, H227
Proprietary Component 3	(CAS No) Trade Secret	Trade Secret	Not Classified
Proprietary Component 4	(CAS No) Trade Secret	Trade Secret	Not Classified
Proprietary Component 5	(CAS No) Trade Secret	Trade Secret	Not Classified
Proprietary Component 6	(CAS No) Trade Secret	Trade Secret	Not Classified

Other adverse effects: N/A

SECTION 13: DISPOSAL CONSIDERATIONS

Waste Disposal: Waste disposal recommendations : Dispose of contents/container in accordance with local/regional/national/international regulations.

SECTION 14: TRANSPORTATION INFORMATION

U.S. DOT Information: Not regulated

IMDG Information: Not regulated

IATA Information: Not regulated

SECTION 15: REGULATORY INFORMATION
