

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: MATCH PATCH PRO BROWN COLORANT
MANUFACTURER: INCREDIBLE PRODUCTS LLC.
ADDRESS: 1601 MCKINLEY RD. ST. MARY'S, OH 45885
INFORMATION PHONE: 567-297-3700
EMERGENCY PHONE: 800-424-9300
REVISION DATE: FEBRUARY 4, 2022

SECTION 2: HAZARDOUS INFORMATION**Classification:**

Skin Irritation- N/A

Eye Irritation- N/A

Respiratory Sensitizer (Solid/Liquid)- N/A

Skin Sensitizer- N/A

Carcinogenicity- N/A

Pictograms: N/A

Signal Word: N/A

Hazardous Statements - Health:

N/A

Precautionary Statements - General:

P101 - If medical advice is needed, have a product container or label at hand.

P102 - Keep out of reach of children.

P103 - Read label before use.

Precautionary Statements - Prevention:

P210 - Keep away from heat/sparks/open flames/hot surfaces.

P264 - Wash thoroughly after handling.

Precautionary Statements - Response:

P308 + P313 - IF exposed or concerned: Get medical advice/attention.

Precautionary Statements - Storage:

P405 - Store locked up.

Precautionary Statements - Disposal:

P501 - Dispose of contents/ container to an approved waste disposal plant.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Red Pigment 101	1309-37-1	60-70%
Black Pigment	11 1317-61-9	30-40%

SECTION 4: FIRST AID MEASURES**Inhalation:**

Remove the person to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if breathing becomes difficult

Skin Contact:

Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if irritation occurs.

Eye Contact:

Remove sources of exposure or move the person to fresh air. Rinse eyes cautiously with lukewarm, gently flowing water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing for a duration of 15-20 minutes. Take care not to rinse contaminated water into the unaffected eye or onto the face. If eye irritation persists: Get medical advice/attention.

Ingestion:

Wash out the mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop giving water if the exposed person feels sick as vomiting may be dangerous. Get medical attention if symptoms occur.

SECTION 5: FIRE FIGHTING MEASURES

Suitable Extinguishing Media:

Use an extinguishing agent suitable for the surrounding fire. In case of fire, use water spray(fog), foam or dry chemicals.

Unsuitable Extinguishing Media:

N/A

Specific Hazards in Case of Fire:

N/A

Fire-fighting Procedures:

Isolate the immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done safely. Move undamaged containers from the immediate hazard area if it can be done safely. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Water may be ineffective but can be used to cool containers exposed to heat or flame. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

Special Protective Actions:

Wear NIOSH approved self-contained breathing apparatus in positive pressure mode with a full-face piece. Boots, gloves (neoprene), goggles, and full protective clothing are also required. Care should always be exercised in dust/mist areas.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Emergency Procedure:

Move containers from the spill area. Approach release from upwind. Vacuum or sweep up material and place in a designed, labeled waste container. Avoid creating dusty conditions and prevent wind dispersal. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Recommended Equipment:

Positive pressure, full-face piece self-contained breathing apparatus (SCBA), or positive pressure supplied air respirator with escape SCBA (NIOSH approved).

Personal Precautions:

Avoid breathing vapors. Avoid contact with skin, eyes or clothing. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing.

Environmental Precautions:

Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems and natural waterways by using sand, earth, or other appropriate barriers.

SECTION 7: HANDLING AND STORAGE

General:

Wash hands after use.

Do not get in eyes, on skin or on clothing.

Do not breathe vapors or mists.

Use good personal hygiene practices.

Eating, drinking and smoking in work areas is prohibited.

Remove contaminated clothing and protective equipment before entering eating areas.

Ventilation Requirements:

Use only with adequate ventilation to control air contaminants to their exposure limits.

The use of local ventilation is recommended to control emissions near the source.

Storage Room Requirements:

Store in accordance with local regulations. Store in the original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep containers tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Empty containers or liners may retain some product residues.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Eye Protection:

If contact with the product is possible, wear safety glasses with side shields.

Skin protection:

Wear suitable protective clothing and gloves.

Suitable protective footwear.

Respiratory protection:

Dust-Production mask if there is a risk of dust formation.

Skin Protection:

Use of gloves approved to relevant standards made from the following materials may provide suitable chemical protection: PVC, neoprene or nitrile rubber gloves. Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, glove thickness, and dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Use of an apron and over-boots of chemically impervious materials such as neoprene or nitrile rubber is recommended to avoid skin sensitization. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Launder soiled clothes or properly disposed of contaminated material, which cannot be decontaminated.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION (CONT.)**Respiratory Protection:**

If engineering controls do not maintain airborne concentrations to a level which is adequate to protect workers, a respiratory protection program that meets or is equivalent to OSHA 29 CFR 1910.134 and ANSI Z88.2 should be followed. Check with respiratory protective equipment suppliers. When airborne concentrations exceed or are expected to exceed the TLV, use MSHA/NIOSH approved positive pressure supplied air respirator with a full-face piece or an air supplied hood. For emergencies, use a positive pressure self-contained breathing apparatus.

Appropriate Engineering Controls:

Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**Specific Gravity:** 4-5**Boiling Point:** N/A**Evaporation Rate:** N/A**Vapor Density:** N/A**Solubility in H₂O:** Insoluble**SECTION 10: STABILITY AND REACTIVITY****Stability:**

Stable.

Conditions to Avoid:

Excessive temperatures. At temperatures greater than 176 F (80C), this product may become unstable and slowly auto-oxidize into Fe₂O₃ which generates additional heat. Under certain conditions this heat may be sufficient to cause combustible materials to ignite.

Hazardous Reactions/Polymerization:

Under normal conditions of storage and use, hazardous reactions will not occur.

Incompatible Materials:

N/A

SECTION 11: TOXICOLOGICAL INFORMATION**Routes of exposure-Dermal contact, Eye contact, Inhalation and Ingestion.****Potential accurate health effects****Eye contact** May cause mechanical irritation(abrasion).**Inhalation** No known significant effects or critical hazards**Skin contact** May cause mechanical irritation(abrasion).**Ingestion** No known significant effects or critical hazards.**Symptoms related to the physical, chemical and toxicological characteristics:****Eye contact** No specific data.**Inhalation** No specific data.**Skin contact** No specific data.**Ingestion** No specific data.**Potential chronic health effects Short term exposure:****Potential immediate effects** Not available.**Long term exposure****Potential delayed effects** Not available.**General** No known significant effects or critical hazards.**Carcinogenicity** No known significant effects or critical hazards.**Mutagenicity** No known significant effects or critical hazards.**Teratogenicity** No known significant effects or critical hazards.**Developmental effects** No known significant effects or critical hazards.**Fertility effects** No known significant effects or critical hazards.**Numerical measures of toxicity: Information on toxicological effects****Acute effects** May be harmful by inhalation, ingestion, or skin absorption.

Cause eye and skin irritation.

ORAL Ld 50 -----5000 mg / kg (rat)

*EYE EFFECTS-----: Non- Irritation to rabbit eyes

*EYE EFFECTS-----: Non- Irritation to rabbit skin (24 hours) *

SECTION 12: ECOLOGICAL INFORMATION

Toxicity

Persistence and degradability There is no data available.

Bioaccumulation potential There is no data available.

Mobility in soil Soil/water partition coefficient(Koc): Not available.

Other adverse effects No known significant effects or critical hazards.

SECTION 13: DISPOSAL CONSIDERATIONS

Waste Disposal:

Material which cannot be re-used should be disposed of in accordance with federal, state and local environmental control regulations at an authorized site by an approved contractor. This product when discarded as sold is not an RCRA hazardous waste. However, under RCRA, it is the responsibility of the product user to determine at the time of disposal, whether a material containing the product or derived from the product should be classified as a hazardous waste.

(40 CFR 261.20-24)

SECTION 14: TRANSPORTATION INFORMATION

U.S. DOT Information:

Not regulated

IMDG Information:

Not regulated

IATA Information:

Not regulated

SECTION 15: REGULATORY INFORMATION

Status under SARA(311/312) Not applicable.

Status under SARA Title III Section 302 None

Extremely Hazardous Substances

Status under SARA Title III Section 313 to the reporting requirements of Section 313 of Title This product does not contain toxic chemical subject III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR Part 372.TSCA:The ingredients of this product are on the TSCA Inventory.

Status under US EPA CERCLA None

Hazardous Substances(40 CFR 302)

State regulations

The following chemicals are specifically listed by individual State regulations states; other product specific health and safety data in other sections on the SDS may also be applicable for state requirements. For details on your regulatory requirements you should contact the appropriate agency in your state.

Ingredient name	CAS Number	State Code	Concentration(%)
C.I.Pigment Black	11 1317-61-9		95-100%
Sodium-/calcium-/Chloride/ Sulfate+Carbon			<4%
Massachusetts Substances		MA-S	
Massachusetts Extraordinary Hazardous Substances		MA-Extra HS	
New Jersey Hazardous Substances		NJ-HS	
Pennsylvania RTK Hazardous Substances		PA-RTK HS	
Pennsylvania Special Hazardous Substances		PA-Special HS	

Status under California Prop 65

Potential exposure to some or all of the California Proposition 65 chemicals in this product have been determined to be below the No Significant Risk Level(NSRL) To the best of our knowledge, this product does not contain any of the listed chemicals, which the state of California has found to cause cancer, birth defects or other reproductive(R) harm.

U.S.Toxic Substances Control Act Listed on the TSCA Inventory

SECTION 16: OTHER INFORMATION

DISCLAIMER

The information contained herein is based on the data available and is believed to be accurate, however, the manufacturer makes no warranty expressed or implied regarding the accuracy of this data or the results obtained from the use thereof. Accordingly, we assume no responsibility for injury from the use of this product.
