## LIMITATIONS

- Do not thin this product
- Do not apply when humidity exceeds 70% indoors
- Allow each coat to dry to 'tack-free' prior to recoat
- When re-coating, always apply the next coat within 24 hours of completing the previous coat
- Relatively thin beads (1/4" width x depth) are best – avoid deep fill repairs in a single lift as minor cracking during cure may result
- Mix thoroughly until a uniform gray color is achieved
- Tube Set applicator works best when material is above 65F
